

## Consultants

Be part of something exceptional

igen has been named as the preferred supplier by the DCSF to provide IAG consultancy services to Diploma consortia nationally.

The consultancy is to support Diploma Consortia in meeting the requirements of the Information, Advice and Guidance National Standards, highlight best practice and identify national trends.

We require exceptional consultants to work with us on this project to deliver a high quality service which makes a significant contribution to the national delivery of information advice and guidance as part of the 14-19 Curriculum.

We are looking for experts in their profession who can provide insightful and independent support to Diploma Consortia in achieving these goals. Consultants will be experienced practitioners in careers education and guidance and have been involved in development programmes, policies and standards for careers education and guidance.

This is an opportunity to be involved in a high profile project to ensure Diploma Consortia can achieve their plans for the delivery of IAG and to feed issues and trends about National IAG Quality Standards back to the DCSF.

All consultants working on this project for igen are required to register with Triangle Staffing before being accepted for consideration to work on this project. All consultancy is allocated on demand from Diploma Consortia.

If you want to be considered for this exciting opportunity to make a real difference to the delivery of Information, Advice and Guidance, [please apply here](#).
