

IAG Audit and Support

igen have recently successfully completed the DCSF contract undertaking audits of IAG provision in Diploma Consortia and Local Authorities in relation to the National IAG Standards.

The audit process included:

- an initial desk based audit,
- a scoping meeting with key staff;
- up to two days spent auditing provision of IAG (including meetings with students, Tutors, Diploma Leads, Senior Managers and key staff in the Local Authority)

Feedback from Consortia and Local Authorities about the audit has been very positive, with comments about how the audits have contributed to developing IAG at both strategic and operational levels.

Funding from the DCSF for the audits has now come to an end.igen, working with the expert team of national consultants who have delivered the audit programme, are able to offer ongoing CEIAG support(including locally tailored audits)through our consultancy service, Triangle Staffing.Costs for Consultancy services would be negotiated on a basis of the specification for the work.
