

DiMENSIONS **TRAINING SOLUTIONS** **Hairdressing Academies** *Throughout Yorkshire*

Summary

Dimensions Training Solutions is Yorkshire's largest Work Based Learning Hairdressing provider training over 700 young people in NVQ Levels 1, 2 and 3.

Dimensions offer a range of Programmes including 14-16 Key Stage 4 offsite learning, Apprenticeships at Levels 2 and 3 and specialised e2e programmes based around Hairdressing.

Learners enrolling on the e2e programme will work towards units from the NVQ Level 2 qualification including

- Health and Safety (G1),
- Shampoo and Condition hair (H9)
- Style and Dress hair (H10).

The learner will also be given support in personal and social development in readiness for their progression into employment and work towards one of the two Key Skills in the Hairdressing Apprenticeship qualification.

Training

Upon enrolling on the E2E course the learner will spend at least 16 hours in a mixture of both academy based learning and offsite placement learning. In the classroom environment learners will attend theory based sessions where the underpinning knowledge of the hairdressing units will be delivered and a range of projects and assignments are designed around the units to complete.

There is also the opportunity to practice the practical work that will be undertaken in the work placement in our academy within the realistic working environment.

The sessions will also provide time for one-to-one support for learners from our dedicated Skills for Life team.

Vocational Experience

With close links to many salons in the Leeds area Dimensions will work with the learner to find a suitable work placement opportunity where they will learn the day to day work of life in a salon.

There are also opportunities for the learner to develop their practical hairdressing skills within the salon starting with basic duties including client care and shampooing and conditioning hair. This area is key for the learner to develop the skills necessary for a working environment and get a taste of what is in store when they progress into employment.
